Total No. of questions

JSPM's  
**Rajarshi Shahu College of Engineering, Tathawade, Pune- 411033**  
 (An autonomous institute affiliated to Savitribai Phule Pune University)  
 Examination: End Semester Examination (ESE)  
 Semester: I Academic Year: 2024-25  
 Program – E&TC, Electrical, Civil Engineering  
 Examination Class: F. Y. B. Tech  
 Course Code: HS1203T Course Name and Pattern: English Language Skills (2024 Pattern)

**Max. Duration: 2 Hours**

**Max. Marks: 50 Marks**

**Instructions to the Candidates**

1. All sections are compulsory.
2. Choose appropriate options from each section.
3. Assume suitable and necessary data wherever required.

**Section - A**

**Q. No. Answer all the following.**

**1 Fill in the blank with the correct article.**

**Marks CO BL**  
 4 1 1

- a. \_\_\_\_\_ computer science department at our university is known for its innovative research.
- b. \_\_\_\_\_ programming language Python is widely used in machine learning.
- c. He is working on \_\_\_\_\_ project that aims to improve data security.
- d. \_\_\_\_\_ technology used in this new software will revolutionize the way we interact with computers.

**2 Identify Figures of Speech in the following sentences.**

**3 1 1**

- a. Her voice is music to my ears.
- b. His smile was as bright as the sun.
- c. The leaves danced in the breeze.

**3 Discuss any 2 Bacon's essays.**

**4 1 1**

**4 Discuss Communication process with diagram.**

**3 1 1**

**Section – B**

**Q. No. Answer the following.**

**5 Read the given text and answer the following questions.**

**Marks CO BL**  
 5 2 2

**The Engineer's Innovation**

In a small town nestled between rolling hills, there lived a young engineer named Rohan. Rohan had always been passionate about solving problems, especially when it came to making life easier for people. He worked for a construction company and spent most of his days designing bridges, roads, and buildings. However, there was one project that was particularly close

to his heart: designing a bridge that would connect the town to the nearby city. The current bridge, built many years ago, was old and unsafe. It often caused delays for travelers, and some people even feared crossing it. Rohan had an idea to design a new, stronger, and more efficient bridge that could withstand extreme weather conditions, heavy traffic, and, most importantly, provide a safer route for the residents. Rohan spent countless hours researching, planning, and consulting with other engineers and architects. He studied various materials, environmental conditions, and the latest technologies in bridge design. After months of hard work, Rohan came up with a blueprint for the new bridge—a modern, sleek structure that would not only be functional but also beautiful, complementing the natural surroundings of the town. The project was approved, and construction began. As the months passed, Rohan oversaw the work, making sure that every detail was perfect. Finally, after a year of hard work, the new bridge was ready. It stood tall, strong, and elegant, a testament to Rohan's dedication and expertise. The people of the town celebrated the completion of the bridge, and Rohan was praised for his innovative design. The new bridge became a symbol of progress for the town, and Rohan felt proud knowing that his work had improved the lives of so many people.

**Questions:**

A) Why was Rohan passionate about being an engineer?

- i) To travel the world
- ii) To solve problems and make life easier for people
- iii) To make money
- iv) To work with architects

B) What was the problem with the old bridge?

- i) it was too small
- ii) It was old and unsafe, causing delays and fear among travelers
- iii) It had too much traffic
- iv) It was too expensive to maintain

C) What did Rohan focus on when designing the new bridge?

- i) Making it the tallest bridge
- ii) Making it affordable for everyone
- iii) Making it stronger, safer, and more efficient
- iv) Making it a tourist attraction

D) How did Rohan ensure the bridge would be safe and efficient?

- i) By asking for a loan
- ii) By researching and consulting with other engineers
- iii) By working alone
- iv) By ignoring environmental factors

Draft an email as you have been selected for a technical competition, but the event schedule overlaps with your final exams. Draft an email to your professor requesting permission to reschedule or get leave from the exam to attend the competition.

Student Name- Swati Gupta/ Pankaj Gupta  
Professor- Dr. K M Singh

**OR**

- 6B** Draft an informal email to a friend asking for details about an upcoming group vacation. **6** **2** **2**
- 7A** Draft a report on the "Challenges and Future of 5G Technology in India." The report should discuss the status of 5G rollout, challenges faced in implementation, and its potential impact on various industries. **6** **2** **2**
- OR**
- 7B** Draft a report on "The Impact of Social Media on Mental Health Among Teenagers". **6** **2** **2**

**Section – C**

<b>Q. No.</b>	<b>Answer the following.</b>	<b>Marks</b>	<b>CO</b>	<b>BL</b>
<b>8A</b>	Describe plot of "The Tempest"	<b>6</b>	<b>3</b>	<b>2</b>
	<b>OR</b>			
<b>8B</b>	Discuss ten effective strategies to prepare for a job interview.	<b>6</b>	<b>3</b>	<b>2</b>
